PERSONAL

Highway Commissioner MacDonald was the guest of John Donovan during his stay in Iowa.

Howard S. Ford has been in Stamford for some time, attending the funeral of his father, Stephen Ford, 70, who died suddenly on Monday from heart disease.

CONNECTICUT SOCIETY OF ALIENISTS MEETS HERE.

Entertained by Dr. Pollock—Favor Medical Inspection of All School Children—Officers Chosen.

The Connecticut Society of Alienists met here on Thursday afternoon and evening with Dr. H. M. Pollock at the Norwich state hospital, giving unanimous support to a bill which its committee on medical inspection presented in the house of representatives.

This came as a result of the report of the committee on medical inspection which was given when the society was in session at 3.30 p. m.

At the present time there is a state law requiring examination of eyes and ears of school children, but this new statute proposed, it is stated, would provide for a general medical inspection of all the school children of the state.

This came as a result of the report of the committee on medical inspection which was given when the society was in session at 3.30 p. m.

The officers of the society were re-elected as follows: President, Dr. D. W. McFarland, Green's Farm; secretary, Dr. A. J. Givens, South Norwalk; treasurer, Dr. F. D. Ruland, Westport.

The executive and legislative committees were named as follows: Dr. H. M. Pollock, superintendent of the Norwich state hospital; Dr. A. J. Givens, South Norwalk; Dr. S. Noble, superintendent of the Middletown state hospital; Dr. J. L. Buell, Litchfield; Dr. C. W. Jackson, Waterbury. As press correspondent, Dr. F. H. Barnes, Stamford, was appointed. Several new members were elected.

The meeting of the society began with a clinic at 4.30 p. m., at which a number of medical cases with organic nervous diseases were shown and discussed. At 6.30 the doctors had dinner at the institution, and after an inspection of the building went into executive session at 8.30.

There will be a further inspection this morning, followed by a bedside clinic at 10 o'clock.

The physicians attending the meeting and clinic were the officers and committee members, with the exception of Dr. Givens of Stamford. Dr. E. S. Vail of Enfield was also present.

BUSINESS MEN'S ASSOCIATION MEETING.

Discussion of Legislative Matters—Communication from Congressman Higgins.

A meeting of the Norwich Business Men's association was held in the Buckingham Memorial on Thursday evening with a good attendance. The first important business of the session was the voting in of several new members.

Communication from Congressman Edwin W. Higgins was read, stating that the recommendation of the association to the state legislature for a bill to amend the law relating to the agricultural department favoring a soil survey of New London county had been received, and that the matter has been placed on the list of new work for investigation as soon as possible.

The committee on new industries gave an interesting report on work recently accomplished and the balance of the evening was devoted to a discussion of the business of the association.

THAMES COLLEGE.

New Name Suggested for Institution Which New London Will Have—Ten Day Subscription Plan.

New London's sub-committee which has in charge the raising of the \$200,000 endowment for the new university, has decided to call the institution the Thames College, bearing the name on a large platter, he being escorted about the tables by Piper McKay. This was given prolonged applause, and it was decided before Reid McIntyre he recited a poem on Haggis, his dialect, and he received a big hand.

Seated at the head table were John MacDougall, toastmaster, and his wife, Mrs. MacDougall, Archibald Mitchell, William Jardine, Otto E. Wolf, William Cruikshank, and his wife, Mrs. Cruikshank, James Henderson, John F. Rogers, William H. Collins, John M. Lee and John McNeill.

The Star Spangled Banner was sung by Archibald Mitchell, and the Toastmaster MacDougall welcomed the large gathering and congratulated them on being able to obtain tickets to the celebration.

He presented as the first speaker, Highway Commissioner MacDonald.

Highway Commissioner MacDonald referred to his visit here several years ago, when he addressed a large gathering on Good Roads, the meeting having been arranged by A. S. Spaulding, and prefaced his remarks with many amusing stories. Robert Burns, he said, was a good roads man. The large gathering reminded him of the fact that a dozen or more perhaps good Scotchmen had brought about this large representation from Bonnie Scotland.

If necessity is the mother of invention, it is the mother of progress. Buryan's Pilgrim's Progress never could have been written in my judgment, with the seeing eye. The great penetration of the line of vision was concentrated and created a new world with many amusing stories. Robert Burns, he said, was a good roads man. The large gathering reminded him of the fact that a dozen or more perhaps good Scotchmen had brought about this large representation from Bonnie Scotland.
